

FAQS

What should I bring to the Hack SC Factory? A laptop, charger, any other materials you would need to build your project. Optional items are sleeping bags, pillows, a change of clothes (recommended), and toiletries such as a toothbrush.

Who can participate? High school and college students are allowed to apply

What categories of hacks will there be? Web Apps, iOS, Android, Hardware, 3-D Printing, and VR/Games. We encourage students to explore a diverse range of different types of hacks during their time at HackSC. Check out our HackSchools section to see the different workshops we'll be hosting with our sponsors.

What is the policy for travel reimbursements? We'll be giving out partial reimbursements based on airfare tickets the day of your acceptance into the HackSC factory. We'll try our best to accomadate all of your needs to get you to our hackathon economically.

Will there be free swag and food? There's gonna be the best swag and food ever at HackSC. We're gonna blow your minds away.

Do I need to have done any kind of engineering experience beforehand? Of course not! We want every person interested in hacking, whether their beginners or advanced, to apply to HackSC.
